

# CSR Activities

---

Quaid-e-Azam Solar has been taking part in different CSR activities. Details of which given below:

## Previous CSR Activities

### 1. Electrification of Off-Grid Villages in Punjab Through Solar Power:

Keeping its specialty into the account, QASPL installed multiple solar power plants in different off-grid villages in Punjab to provide them with electricity

List of the villages is as follow:

#### a. Bharti, Dera Ghazi Khan:

750kW On-Grid Solar Power Plant was installed in the area to provide electricity to nearby settlements. The plant is functional Since 2022

### **b. Basti Mud Saindad, Rajanpur**

84.5kW On-Grid Solar Power Plant was installed in the area to provide electricity this village of about Approximately 85 households. The plan supplies electricity during day time using solar panels and for the night time it has its own battery backup.

The plant is functional Since 2022

### **c. Basti Kheersar, Bahawalpur**

70kW On-Grid Solar Power Plant was installed in the area to provide electricity this village of about Approximately 70 households. The plan supplies electricity during day time using solar panels and for the night time it has its own battery backup.

#### **d. Pughla Shumali/Januni**

195kW On-Grid Solar Power Plant was installed in the area to provide electricity this village of about Approximately 190 households. The plan supplies electricity during day time using solar panels and for the night time it has its own battery backup.
